

Legends and Rock Stars

Legend Robert Hudson

Captain Robert Hudson... looking back over the years at Gray Taxidermy, Captain Robert Hudson has been involved in almost all the 50+ years we have been in business. He has also mounted more fish than anyone in Hawaii. It is a great privilege to award him the title of LEGEND. He 100% represents the Gray definition of Legend: Fisherman and top mounter for over 30 years. Fishing the world with outstanding ethics and morals, respected by fishermen in the industry, top quality customer care and acute awareness of the fishing industry.

Merely saying that Captain Robert Hudson is a family man, just doesn't do him justice. He and his wife Cindy (also a Captain) are quite a team and their children have followed right along in their footsteps. It is truly a beautiful life they have built together.

From Captain Robert:

"I have been in business over 40 years now. I started with nothing when I moved here to Kona, and with my wife's help (who also is a charter boat captain) we built probably the best single charter boat business here. Our belief is, **Family is Forever**. Not only for our life, but also in our business. We now have customers fourth generations in their family coming to Kona for fishing. Nothing makes us happier than catching someone their first fish!"

"We have caught more trophy game-fish than anyone else in Kona including our grander. Our sons are now captains taking our business to new levels. I am the oldest, most active Captain here in Kona and I am looking forward to many more years."

"My thanks to Gray Taxidermy for creating the best trophy game-fish mounts in the world for my clients to have in their homes and businesses."

"Much aloha and God Bless"!!

Congratulations Legend, Captain Robert Hudson, the privilege to know and work with you all these years is ours!!
